Important Foreign News.

The steamship Africa arrived last night with Liverpool dates to October 1st. The telegraph brings us a very full synopsis of her news. Affairs in Italy present a very critical aspect, and another Italian war seems inevitable. Advices from Australia announce the wreck of the steamer Admilla, off Cape Northumberland, on the 6th of August, with the loss of eighty-seven lives.

In the Liverpool market breadstuffs are reported firmer, and some qualities higher.

The October Elections.

The telegraph confirms the first reports of brilliant Republican victories in Pennsulva-NIA, OHIO, INDIANA, MINNESOTA and IOWA. In all five States the Buchanan administration and the National Democracy have been utterly routed. MINNESOTA, heretofore Democratic, is gloriously redeemed. Onto which was very close two years ago, is now overwhelmingly Republican. In PENESYLVANIA. too, so long the Key-Stone of the Democratic arch, the Opposition have swept the field .-The result in Ohio and Minnesota gives us two more Republican U.S. Senators. We have some further returns from Indiana, which confirm the Republican gains in-dicated by yesterday's despatches. Colfax's dicated by yesterday's despatches. Colfax's county—St. Joseph—has rolled up an unusual Republican majority; it generally gives two or three hundred, but this time a major ity of 500 has been obtained. Porter County is reported Republican: last fail it went Democratic—Miami County is Republican by 200,—last full it was Democratic by eighteen. A correspondent at Crown Point writes that Lake county has gone Republican by nearly 500 majority. The election at Indianapolis was warmly contested, but resulted in a Republican victory, the majority reaching 800. Other parts of the State come equally well. We have already given some particulars of the striking of an iceberg and the drawning of the second mate and two other men. The affair occurred at 4 o'clock, A. M., on the 20th of August, when ninety miles east of the Straits of Belle Isle. It being the second mate's watch on deck, that officer called the men aft to heave the log, when the vessel struck an iceberg. The cry was raised that she was sinking. The second mate, whose name was Alusley, accompanied by John Bowen and David Alexander, got into the small boat, and in the excitement of the mosmall boat, and in the excitement of the mo-ment deserted the brig. The small boat was soon swamped, and all three drowned. Their conduct was that of men entirely destitute of presence of mind. Aiusley belonged in Liverpool. Bowen was from New Haven, Conn., and Alexander from St. Anns, N. F. They shipped at Liverpool.

Capt Malott informs us that he was driven hack 75 miles after making Anticosti, after which he lay at anchor two days. He was compilied to lay at anchor five days at Dick Island, 150 miles below Quebec.-Detroit Tribune, of Wednesday evening.

The Free Democrat of last evening contains a very scathing and "wholesome" review of the Wisconsin's criticism on "Mohega," and signed "Bertham." Had we the

never from the mind of Sonolewski. And he then adds:

"All this, however, is so blended together in a harmonious whole, that the general effect is pleasing and wholesome, without being at all offensive." Mark this-"wholesome, without being at

all offensive"! Did Rossini, or Anber, or vale interviews-and believing that, at least Weber, or Werner, ever reach that point of it goes far in the direction of explaining the fame where a wholesome chaplet was dropped on their brows? We think not. This sage summing up of musical wisdom was left for the supposed agency of departed spirits, re-Milwaukee, where the critic regards the spectfully request you to deliver said Lecture opera as he does a beef steak--altogether in in this city, at an early day, and at such dietetical light. He observes, "Mohega acted throughout

in keeping with the character," but it must be balanced and so "she should have displayed a little more spirit!" "Miss Sano- Edward Cooke LEWSKI rendered some of the recitative party? -it is worthy of observation that there were no recitative parts in the opera,—but hear | f L Buttrick, this astounding climax-"she rendered some | Jno B D Cogswell, of the recitative parts with a dramatic power equal to some of the best representations we have seen at the Academy of Music." Is not bbls flour and 100,941 bus, wheat. Our des. this a shameful blunder! especially as Miss Sobolewski lays claim to no dramatic excellence—and, in point of action, was surpassed "Mohega!" But "we," who have been at the Academy of Music, and, no doubt, also to the neighboring Astor Place Opera House, and have sat through all the seasons and the immortal Jenny, down to Piccolomini, for "dramatic power in opera," award the palm to Miss Sobolewski!

This critic again assures us that: "There were a few exquisite melodies in the production. Such an one was the duett by Helen and Mohega, at the commencement, we think it was, of the second act."

If "we" has been a habitue of the academy he should have learned that by no possible tteans can a duett be a melody.

"We could not exactly see any occasion for singing a drinking song, when Butler was with Ellen alone in the fort and taking the drink, too, out of a lager beer mug, which we are inclined to believe were scarce in this country during those times."—Potter.

"Perhaps he could not see the occasion of singing the play at all, when it could have been as well spoken. The suggestion is prolifte of others. Where was the occasion of the Indians singing when they had slaughter to perform? Why did Ellen sing when tied to the tree? Why did she not go on with her lying, and let warbling alone until the un-pleasant duty was performed? As to But-er's using a lager beer mug, that is only the fancy of the critic's muggy brain, and is only a rhetorical flourish whose beauty reeems its falsity."-Bertram.

JUDSON'S PATENT GOVERNOR VALVE.-In the advertising columns will be found a decription of this important invention, which was patented by Junius Junion, of Rochester, N. Y., 1850. The advantage claimed is, that the Judson graduating valves act instantly, without overcharging the cylinder when driving a light load, and does not throttle and choke the steam when drawing a heavy load, when the boiler and cylinder pressure are nearly iqual and steam flows

There is one of these governors on t gine in the Sentinel establishment, where its practical operation can be seen at any time. and where full information can be obtained.

WHEAT FROM IOWA AND MINNESOTA .-Considerable quantities of wheat are now coming to our market from northern Iowa and Minnesota. Amongst the receipts by the Milwankee & Mississippi Railroad, yesterday, were 5,000 bushels of wheat from Lausing, Minn., and the day previous, fourteen car loads came in over the same road king twelve trips each across the lake, the from McGregor, Iowa. The larmers of both northern Iowa and Minnesota will find a better market for their produce here than either at St. Louis or Chicago, and besides, Milwankee is the natural and most convenient market for all that section of country.

FIRE .- Yesterday about 3 o'clock P. M., a fire broke out in the dwelling house occupied by E. W. DENNIS, Esq., situated on Jackson Street, in the First Ward. It originated in and about a defective flue in the dining room, and a strong wind blowing at the speaker, and one who will always be poputime, the flames spread with a rapidity so great as to render all attempts to save the building useless. Mr. DENNIS' loss will probably amount to \$250. L. W. KENNEDY owned the house; we could not learn to what extent it was insured.

Now we respectfully submit to our intelligible should meet with favor. Lawyers and Judges all feel the want of a convenient manual of the new system.

In the Revised Statutes what is called the Code, with its various amendments, and some additions, are scattered through the volume rendering reference to different provisions difficult and laborious. The still later changes of last winter are also only to be found by examining the session laws. This book presents in the best form the

whole code as it now exists, with a reference in each section to corresponding provisions playing in the tank. in Voorbies' and in Howard's New York Code, thus facilitating and ascertaining the decisions on construction, &c., made upon the provisions in New York. The citations are accurate and the text is, as far as we have noticed, perfectly correct. Any volume prefaced in the manuer her,

In a lawyer's library accuracy is of paramount importance; correctness of text and citation tity of Apples raised out of Wiseonsin. Mr. saves an infinite deal of labor, and no little vexation. To make such a book, requires skill, diligence and patience; and the pages of this code evince the exercise of those qualities on the part of the compiler.

The appendix, containing the rules of the Supreme and Circuit Courts and the laws in the different countries is also very useful.

MILWAUKEE, Oct. 8, 1859. Messrs. Pyper, Holton, Waldo and others: GENILEMEN -- Your note, requesting me o give my views of so-called Spiritualism, in a public lecture, is before me. I will not conceal the fact of my more than willinguess to lay my views on this subject, which I be lieve are original with me, before the think, ing pertion of the public. Especially shall listened to every cantatrice from Alboni and I be happy to address professional men, clerical, medical and legal, teachers, and all mon who think. I am confident that the most interesting and recondite phenomena connected with this subject, admits of a clear and demonstrable exposition upon well-established principles and facts in mental philosophy and that the spiritual theory can be demonstrated upon purely philosophical principles, to be based upon a fundamental delusion. The subject is also extremely interesting in its relations to mental science .-I shall be happy to submit my views to the public here, as I have already in another city, with the approval of professional and scientific men; peculiarly gratifying. With your approval, I will lecture in the 1st

WE ARE requested to say that the name of the trotting stallion, that took the second premium at the State Fair, is Young Bashaw, not Young Dashall, as it was incorrectly reported last week. This fine young horse was raised by Dr. Geo. W. CALKINS, in Columbus county, N. Y., and is now owned by him near Merton, in this State. Foung Bashaw is descended from the celebrated horse Grand Bashaw, imported from Tripoli, in 1820. Among the many excellent horses de rived from the same stock, may be mentioned Andrew Jackson. Lantern, Jenny Jones. Young Andrew Jackson, (known also as Long Island Black Hawk) who was grand sire of Young Bashaw, and was one of the best trotting stallions of his day.

POR THE DAILY SENTINEL.

LA CROSSE, Oct. 14-3 P. M. From the St. Paul Daily Times: Returns come in very slowly. Ramsey gains so far from the vote of 1837. Five hundred in Ramsey co; five hundred in Hanneyin; four class engine, and competed for a first class second day, entered their machine as a second hundred in Dakota; one hundred and seventy-five in Rice; one hundred in Washington; one hundred and fifty in Anoka, one hundred in Carver. He holds his own in Goodbrother firemen, and the public at large, hue; gaining some in Wabashaw and Chisago, and probably loses in Winona. Balance of the Republican ticket runs fully up with company, No. 2, of Madison, in taking such Ramsey thus far, making their gain as far as a course, as well as that of Mr. Hofford, a course, as well as that of Mr. Hofford, Foreman of Co. No. 3, of this city, with some of the country judges, who allowed them to do so, is not deserving of the severest reprehension, as being in the highest degree unfair and ungentlemanly. And we do think the by-standers, with some of the judges, will agree with us in stating that we of the Ramsey thus far, making their gain as far as heard from, six or seven hundred greater than him. Republicans are known to have gained one Senator in Ramsey county, and one in Anoka district, also two Representatives in Ramsey, one in Anoka, one in Rice, and probably five in Dacotah. Democrate may elect five in Winona. No doubt of the election of the Rapublican Congressmen, Governor, State ticket, and both branches of the Legislature. The National claims that Hobart stands fair and square on the Buchanan platform, and repudiates the Douglas heresy, and thereupon invites the Democracy to to "sustain the Administration" by voting for Houart. These are both Democratic papers. Each claims to be orthodox and to speak "officially" for Mr. Hobart. The doctrined advocated by the one are exactly the paverse of those maintained by the other, and each insists that Mr. Hosaer is "identided" with its peculiar views. Certainly, Mr. FACING-BOTH-WAYS must be delighted with the "double-tongueing" of his two organs. They stuld and suit him better, or represent him mitte energedly, than by setbetween Douglas and Administration. But how do the intelligent Electors fancy the idea of choosing a man for Governor whose confidential organs thus differently interpret his nolitical opinions !

We think we may safely say now, before any su-thende news has been received, that Minnesota has gone Republican. The newly invented " Squatter Sovereignly" dodge of Senator Docquas was brought prominently into the canvass; and the Democratic speakers and presses invoked the name and fame, the deeds and words of Douglas, to help them to a victory. EDITOR OF THE ATLAS: -So much time has elapsed since the adjournment of the Republican State Convention, that we may now calmly consider whether there is any position different from that occupied by the rest of the party, that is fitting for the Republicans of German birth to take. This a question involving both principle and policy It ought to be approached without passion, without prejudice, whether arising from selfishness or ignorance.

It need not be argued to the true Republican, that only in extraordinary cases can it forward by the party as the exponent of its has studied the politics of this country, penstrated beneath the names into the substance of parties, searched diligently after truth through much error, and has clung to that truth with a fidelity tried by temptations, and a zeal sharpened by persecutions. The German, whose clear head and true heart have For only Twenty-Five Cents! brought him into the Republican ranks, has a deep conviction that in those ranks he must fight for the principles which alone are

worth defending. It is because of this conviction, because of the intelligence which formed, and the earnestness which animated this conviction, that German Republicans command the respect willingly paid to them by those American born Republicans, who comprehend the struggles by which Germans fight their way up to the Republican platform, the sacrifices, pecuniary and social, too often undergone, the numberless aunoyances, the insults and abuse endured, the derision and reproach heaped upon them by many of their countrymen, still willing slaves to the name of Democracy. For it is true, although few Mr. FACING-BOTH-WAYS, the nominee of but Germans know it, that many Germans in our midst have been no less martyrs to ready imitators, among the presses which the principles of liberty proclaimed in the support him, of his two-sided course is the Philadelphia platform than those who perishpanding canvass. AUTUMN. Sweet Subbath of the year,
White evening lights decay,
The parting steps methinks I hear
Steal from the world away.

Amid thy silent flowers 'Tis sad but sweet to dwell, "Tis and but sweet to dwell,
Where failing leaves and drooping flowers
Around me breathe farewell.

Along thy sunset skies Their glories melt in shade, And like the things we fondly prize, Seen lovelier as they lade. A deep and crimson streak
Thy dying leaves disclose;
As, on Consumption's waning cheek,
'Mid ruin, blooms the rose.

Thy scene each vision brings Of beauty in decay; Of fair and early faded things, Too exquisite to stay;—

Of joys that come no more; Of dowers whose bloom is fled; Of farewells wept upon the shore; Of friends enstranged or dead; Of all that now may seem,
To memory's tearful eye,
The vanished beauty of a dream,
O'er which we gaze and sigh.

THE STATE.

THE BAILBOAD EXCURSION.—The grand excursion over the North Western Railway, from Chicago to Fond du Lac and Oshkosh, arrived in this city resterday at a quarter past one o'clock P. M. The arrival was anpass one of clock I. M. The allivat was au-nonneed by the discharge of cannon. There were seventeen passenger cars which were densely packed with citizens of Chicago and densely packed with citizens of Chicago and from several points along the line of the road. There were about fifteen hundred persons upon the train. Among these were most of the officers of the company together with a large deputation of stockholders and others interested in the road, besides many who took this occasion to enjoy a pleasure excursion into a region heretofore unvisited by the railroad traveller. The day was unsually pleasant, and the expected arrival of the train caused a large crowd of our citizens to congregate at the depot. Upon the arrival of the cars the excursionists proceeded to the Hyatt House, accompanied by the splendid company of Zouaves of Chicago, headed by a full military hand from the same city.—
The appearance of this company attracted all eyes.

There being but a short time for a stay in our city, the excursionists were soon seated in the ample dining hall of the Hyatt Honse, to the number of five hundred, where they did ample justice to a good dinner. Immediately after its conclusion they betook themselves to the cars again, headed by the gallant Zouaves and their inimitable band, which discoursed the grandest of military music.— SIGN OF THE WHITE BEAR,

First Circuit No. 12.—Blair vs. Carey.—

Argument by Arnold & Carpenter for Appellant, and John W. Cary for Respondent in pro. per .- Madison Journal.

THE Superior Chronicle says that there is a movement on foot to induce the farmers of the upper Mississippi to bring their surplus produce to Superior. It also says that the merchants of that region will pay Chicago prices for their grain, which are at least dou-ble what can be obtained at St. Paul. The same paper says that Mr. Carson of Outonagon, and Mr. Whittlesey, the well known geologist, have been engaged in making an examination of the copper ranges of the north and south shores in the vicinity of Superior. But lithe doubt exists of their be-

ng vast mineral wealth in these ranges. INSTALLATION.—The Installation of Rev. Mr. Doe, as pastor of the First Congrega-tional Church of this city, will take place on Wednesday, the 19th, at 1-2 past 6 o'clock P. M. Rev. Mr. Helmer, of the Plymouth Church of Milwaukee, will deliver the sermon. The examination will take place at 2 o'clock, at which, as well as the Installation ceremony, the public are invited to be present.—Appleton Motor.

WOLF RIVER LUBBER is taking a new direction. The Portage City Badger State, says that lumber from the Wolf River is being towed up from Oshkosh, rafted in the canal there, and sent down the Wisconsin to the markets on the Mississippi—principally Dubuque and St. Louis. In this way, seven or eight millions of feet have already been sent down this season.—Green Bay Advocate.

GREEN BAY SHINGLES AHEAD!-By a dispatch from St. Louis, we learn that Parsons & Farlin, of Chicago, received the first premium at the Missouri State Fair at St. Louis, for the best hand shaved shingles. These are Green Bay shingles, made by our own people, and it is a gratifying fact that so important a branch of our exports stands so

well abroad.-Ib. FOX LAKE ITEMS-LARGE TURNIP .- The largest Turnip we ever saw is now on exhibition at our sanctum. It weighs eighteen pounds and measures twenty-five inches round. It is of the English variety and was raised on the farm of Mr. E. G. Tyrrell, of this town.

this town.

An ITEM.—On Saturday last, we counted seventy-one teams in our streets, at one time. The number was so great that it was almost impossible for even one more to pass through. We do not publish this as a "gas item;" but an item of actual occurrence.—Gazette.
